JOB PROSPECTS

There is always a demand of skilled & trained manpower in aviation industry. A career in aviation is well paid, rewarding and challenging. Successful candidates after passing in AME course has excellent opportunities.

AIM FOR THE SKY

The Aircraft Maintenance Engineering (AME) course is a program designed to train individuals to become certified aircraft maintenance engineers.

AME professionals are responsible for maintaining, repairing, and overhauling aircraft, and ensuring that they are airworthy. The course typically includes both theoretical and practical training, covering aircraft systems, maintenance procedures, and regulations.
